

# Wilma's Orphans Inc.

♥ A Canine Orphanage on Long Island ♥

One of the most serious health issues the majority of dogs and cats coming into rescue share are compromised immune systems, largely due to poor nutrition and lack of care, even those who are owner surrenders. It is apparent in the dryness and flakiness of their skin and lackluster dullness of their fur. All the dogs who come into my rescue are fed an all natural dry food with a NuVet Plus supplement and salmon oil to build up their depleted immune systems. In a matter of weeks you can see the difference. And this is just the beginning...it is just as important to maintain a healthy immune system for the life of your pet. You may not see the results after the initial changes but you will appreciate the effect that NuVet Plus has as your pet grows older. Think of it as preventable medicine...

More than a million dogs and cats are using NuVet to **protect against most ailments** (from back yard pesticides, pet food allergies and hormones, toxic formaldehyde in furniture and carpeting, ailments transmitted from dog parks and the vet's office, etc), while maintaining a **beautiful skin and coat**.

NuVet Plus is not just a vitamin. It's is an **immune system builder** with a precise balance of vitamins, minerals, omega fatty acids, amino acids and high-potency antioxidants. That's why it works so well through all three stages of a dog's life.

**For younger dogs** (under 2 years old), it strengthens their immune system, while building and strengthening the cardiovascular, skeletal and nerve systems.

**For dogs in their prime** (age 2-8), it improves the luster of their skin and coat while protecting against allergies, skin and coat problems, staining from tears, digestive problems, etc.

**For older dogs** (over 8 years old), it helps reduce and eliminate arthritis, tumors, premature aging, cataracts, heart conditions, diabetes and many types of cancer, while extending the life and improving the vitality of many dogs.

I highly recommend NuVet Plus to keep your new furbaby on the path to perfect health! It's not available in stores, and is only available to the general public with an order code from an authorized pet professional.

You may order directly from the manufacturer by **calling 800-474-7044** and using **Order Code: 63564**, or order **online** at [www.nuvet.com/63564](http://www.nuvet.com/63564). By using autoship you can save an additional 15%.

To the long life and health of your new family member!
